## AMBASSADOR PAGE FORWARDS SPEECH

Tendered to Secretary Bryan the Document Covering Remarks Made in London

(By Associated Press)  
Washington, March 25.—Ambassador Walter H. Page's celebrated London speech, in which he was accredited with having made certain references to the repeal of the Panama Canal exemption, was forwarded to the Senate today by Secretary Bryan in response to Senator Chamberlain's resolution calling for an explanation. Mr. Page's speech, some twenty-five hundred words in length, was furnished to the Senate in full. The portion relating to the Panama canal was as follows: "I will not say that we constructed the Panama canal for you. For I am speaking with great frankness and not with diplomatic indirection. We built it for reasons of our own. But I will say that it adds greatly to the pleasure of building that great work that you will profit by it. You will profit most by it for you have the greatest carrying trade. I can say similar things about the recent completion of our canal. We did not lower it in bread to please you. It was for purposes that we considered economically sound for ourselves. Nevertheless, it added to the pleasure of doing that to reflect that there would be some benefit to you with you."

## Not A Suffragist But Is Militant

(By Associated Press)  
Belfast, March 23.—Sir Edward Carson, commenting on the parliamentary debate, said tonight, "hour by hour I am becoming more impressed with the government message of peace to Ulster."  
Sir Edward received today a suffragette deputation, and informed the women that when he was unable to ask for any special treatment for the women of Ulster as he had never approved of the suffragist movement.

## THE INTERURBAN COMES TO TOWN.

(Spartanburg Herald.)  
The Greenville, Spartanburg and Anderson electric railway, better known as the "Interurban," is now in operation between here and Greenville, which means that we are in connection by electric lines with Greenwood, Anderson, Dalton, and other points served by this system. Spartanburg has long looked forward to the completion of this road and expects to derive benefit from its opening. It is that it will furnish better means of transportation and that ultimately there will be marked development along the road between Spartanburg and Greenville. This section is certainly to become thickly settled and the farms in that region will in time supply produce for the local markets that is now sadly lacking. The Herald welcomes the opening of the Interurban and hopes it will enjoy a patronage that will prove the wisdom of its construction.

# Anderson Leads State

In many ways Anderson county leads the state and one of the most important of these is an educational way. That Anderson is right up at the front in matters pertaining to education is a matter of common knowledge throughout South Carolina and additional proof of this fact is contained in the statement made yesterday from the office of the county superintendent of education. J. B. Felton, the superintendent, announced that he had just received a check for \$6,465 for the 26 rural graded schools of Anderson county. This is a larger amount than is paid to any other county in the state and is slightly more than one-tenth of the entire amount appropriated by the general assembly for this purpose—\$60,000.

Mr. Felton is much pleased over the aid that this will be to the rural schools of the county and so stated yesterday. Naturally the patrons, pupils and teachers of the various schools will likewise be pleased. The following is a complete list of the schools that will receive aid and the amount each will get:

Name	District	Number	Amount
Dencer	Pendleton	2	\$300
Roberts	Rock Mills	5	300
Centerville	Centerville	6	300
Hopewell	Hopewell	7	300
Darves	Darves	8	300
West Pelzer	West Pelzer	13	300
Long Branch	Honea Path	16	200
Mountain View	Mountain View	18	200
Concrete	Concrete	21	200
Union	Union	19	200
Bishop Branch	Bishop Branch	28	200
Three and Twenty	Three and Twenty	32	200
Long Branch	Long Branch	33	200
Friendship	Friendship	35	200
Cleveland	Cleveland	36	200
White Plains	White Plains	48	200
Walker-McElmoyle	Walker-McElmoyle	50	300
Melton	Melton	52	300
Broyles	Broyles	51	300
Welcome	Beaverdam	56	200
Zion	Zion	53	200
Central	Central	58	200
Airy Springs	Airy Springs	64	200
Double Springs	Double Springs	68	200
Green Pond	Green Pond	69	200

Anderson is the banner school will not let up and will endeavor to county in the state, but Supt. Felton push the work even further.

## DESCRIBES TYPE OF ANDERSON CATTLE

### BLOODED STOCK FOR THIS SECTION ARRIVING

### BREEDER WRITES

#### Overton Harris of Missouri Tells Local People of Qualities of the Stock

The Hereford cattle purchased by Paul V. Moore, secretary of the Chamber of Commerce, and J. J. Watt, state livestock expert of the government, connected with Clemson College, has arrived in Anderson from Greenville. The cattle were bought at Messrs. Moore and Watt had made a tour of the middle west. They were procured from the large stock farms of Overton Harris & Sons, Harris, Mo. Mr. Harris is probably the best known breeder of Hereford cattle in the United States, and he has received many trophies for his blooded stock. Some of his bulls are priced at \$10,000 a head.

**Reasons for Purchase.**  
This breed of cattle was bought for Spartanburg, Greenville and Anderson counties in order that they might be the nucleus of an extensive stock-raising industry in the Piedmont section. The farmers in this territory are slowly coming to the realization that the Bell weevil is due to reach this state in five years and a one-crop system will mean financial disaster. The solution is the diversification of crops, and livestock raising is one of its main features.

In compliance with a request made by Mr. Moore, Overton Harris has written a short history of the Hereford cattle on his farm and he shows their blood strain. In order that the farmers of this county may know the class of cattle they have bought, the full text of Mr. Harris' article follows:

**The Article.**  
"It is with pleasure that we give you a few brief remarks relative to the starting and upbuilding of the herd of 'Model Herefords' as well as relative to a few of the most important winnings."  
"It was over a quarter of a century ago that we stepped into the registered Hereford cattle business. Our policy was to get the best, at as low a cost as possible. We selected our sire, Benjamin Wilson No. 63,228. The result of the cross of this bull on our cows brought results beyond our fondest expectations. It produced a class of cattle that anyone might well be proud of. After this we went to the F. A. Nave closing out sale and bought a goodly number of the best things he offered. Several of these animals were bought at long prices, but it was, as is now, our motto to find quality and let the price be a secondary matter. Not long after this we started into the show ring. Our record was unsurpassed by any American breeder. But I will not deal with the past so much as I will the present. At the great world's fair at St. Louis during 1904 the 'Model Herefords' were by far the heaviest winners there. We won both breeds and exhibitors' herd. In fact we won more than all our competition combined, and we won it after this show that we got our entire show herd, to W. C. Carroll of Wisconsin. It was part of the agreement when the trade was made that we were to stay out of the show ring for four years. Of course we saw to it that I might do that it was during the years previous to our rearing our show herd that we bred and developed the wonderful cow 'Betty 2'. This cow was sold to the Chicago International Association sale for \$4,750. This is one of the highest ever paid Hereford cows ever sold at public auction."  
"During 1908 we were at it again. As usual, our bull was the grand champion bull at America's greatest

Hereford show, the American Royal, at Kansas City. This bull was 'Onward 31'. We afterwards sold him to Mr. Cudahy. However not until we had included some of his championship blood into our herd.

"Several years prior to this we found it necessary to add another bull to our herd. We wanted a bull that would cross well with our Benjamin Wilson heifers. We selected the bull 'Beau Donald 5', No. 86142. This cross worked wonders and it was with them that we made our successful winter sale, selling our show herd. It might be added that this bull was a grand champion in several of the leading shows.

**Herd Increasing.**  
"Our herd was increasing all the time and 1909 found us in need of more bulls. Of course you understand that I am giving you the names of only the most prominent bulls which we have used. I wanted something to cross into the blood of the Benjamin Wilson-Beau Donald fusion. Our selection was 'Repeater'. This bull was the undisputed grand champion throughout the entire year of 1909. It is needless to say that our entire show herd were at the top all through the circuit.

"It will be noted that we have now used three grand champion bulls at the head of our herd within the last ten years. The use of these champions of the cows we selected brought results that the entire Hereford kingdom were compelled to acknowledge as being of the superior sort.

"Our next bull was 'Gay Lad'. This bull and 'Repeater' had quite a time in the show rings during 1910. 'Gay Lad' was showing as a senior yearling and 'Repeater' as a two-year old. First one and then the other was made grand champion. However, 'Gay Lad' succeeded in winning five times out of eight shows.

"Our herd during 1910 again acquired the habit of winning more than all our competitors combined.

"During 1911 'Gay Lad' was the undisputed grand champion bull and the herd again won more than all competitors. In fact out of a possible 24 herd prizes we won 20 firsts; two seconds and two thirds. Never has this record been equalled by any other exhibitor of Herefords.

"During the year 1912 we exhibited the junior champion bull and junior champion female throughout the year and our herd prize winners were just as extensive as during 1911.

"It is the sad story for 1913. Grand champion bull throughout the entire year and in most every show the grand champion cow. At the American royal, our bull, Prince Perfection, was the senior champion bull and 'Repeater' was the junior champion bull as well as grand champion. This bull has his first defeat to receive. He has been a winner since a calf. He was junior champion everywhere his first year out. Last year he was the junior and grand champion at every show. He is pronounced by many competent judges as being the greatest past living Hereford bull.

"Please bear in mind that the 'Model Farms' have shown five grand champion bulls during the last six years at the great American royal. Think what this means. No other herd can say as much.

**The Class of Females.**  
"The class of our females can best be explained by saying that we have shown over 50 per cent of the first prizes in the herd prize rings during the past three years and in many instances, with single exceptions never have shown below this.

"To produce a grand champion bull is no easy task. It is not so remarkable, however, for any one herd to have one grand champion bull in five years, but when one herd has five grand champion bulls in service it is something remarkable. In fact, we enjoy being the only Hereford herd in the entire world that can say as much.

"Not only our bulls are champions, but they are producing champions. What more could you expect when you mingle the blood of champions in such a manner as is done at the 'Model Farms'?"

"I would like to have you look over the records of the past five or six years. I would like for you to see for yourself where the 'Model Herefords' stand."

"I want you to know that it was quite a pleasure to have you and Mr. Watt with us. We always like to

have our cattle passed on by such able judges. We like to have our opinions verified; we like to show our herd because it represents a life's work. I want to congratulate you on the selections you made from our herd. They were an excellent bunch. I know that they will give good account of themselves. I am glad to see the south take hold of registered Herefords such as they are. A few bunches of cattle such as selected by you will soon get the county started. It will be regretted that you were limited with your funds. However, am sure that you realize that you got full dollar for dollar value. When you and your people have become thoroughly convinced as to what the Herefords will do, come back and buy of the better quality and reap the rewards that are in store there for you."

## NO IMMEDIATE RATE DECISION

### THE TAKING OF TESTIMONY PROBABLY WILL BEGIN LAST OF MONTH

## A THORO HEARING

### Every Effort is Being Exerted to Expedite Case, But the Final Decision is Far Off

(By Associated Press.)

Washington, March 24.—An official announcement issue today by the inland commerce commission indicating the likelihood of taking additional testimony in the Eastern advance rate case as late as April 22, was accepted as making it quite certain that a decision in the case could be expected before some time in May, at the earliest, and probably not until a short time before the commission adjourns for the summer, late in June.

The railroads have requested the commission to afford them opportunity to present additional testimony as to the conditions now existing as to rates and also to offer evidence in rebuttal of the testimony introduced by those opposed to an advance in rates. The commission announced that it would begin to take additional testimony on March 30 and 31 and that, if necessary, the hearing would be completed on April 20, 21 and 22. As Clifford Thoren, chairman of the railroad commission of Iowa, representing eighteen western states in opposition to the proposed advance is to present his views on March 30 and 31, it is hardly possible that the hearing can be concluded until late in April.

Those in intimate touch with the procedure of the commission regard it as likely therefore, that the case cannot be argued until some time in May. After the hearing of testimony shall have been concluded, a reasonable time, ordinarily it is fifteen or twenty days, will be given for the submission of briefs by counsel for the roads. These will be followed by briefs by counsel for the opposition. After the briefs have been submitted a time, extending perhaps over several days, will be taken up in oral arguments.

In the usual course of events, this procedure would consume the time until nearly the first of June. How long after that it might take the commission to determine the issues involved and to prepare a formal decision is a matter of pure conjecture.

It was recalled today that chairman Harlan, announced from the bench a few weeks ago that the rate case was being expeditious in every way and that it was expected that a final decision might be reached before the summer recess of the commission.

## SECOND GAME OF THE SERIES WITH ERSKINE

The second game of baseball between Erskine college at Due West, and the Brooklyn team of the Federal league played on the Erskine diamond Tuesday afternoon, went to the big leaguers, the score being 5 to 2. The game was good, some splendid playing being done by both sides, but it did not equal the first game played between the two teams when Brooklyn on Tuesday beat the collegians by the score of 1 to 0. The feature of yesterday's game was a home run by Cooper of the Brooklyn team.

Mr. George Evans of the Owl Drug Company and a number of the Anderson people went to Due West for the game yesterday and they said that it was a really better exhibition than is usually seen when college teams and professionals play.

## Southrons Qualify for Consular Appointments

Washington, March 25.—Numerous Southrons qualified for appointment to the consular service in recent examinations, according to the list given out here today. It includes: Virginia—William A. Bickers, Ernest L. Ives. North Carolina—Egmont C. Vos Trosekow. North Carolina—Samuel Hamilton Wiley. Southrons who qualified for appointment to the consular assistants of student interpreters were: Virginia—Carl M. J. Von Zietinski, Thomas Robert era Williams. North Carolina—E. Harrison Yelverton.

## VIRGINIA DISLIKES DANIELS' ATTITUDE

### Placed Contracts for New Supply Ship and Transport With Northerners

Newport News, March 25.—Declaring that the action was unjust and unfair to the Newport News shipbuilding company and that it is currently reported such action was taken for political purposes and "to exact reparations for the democratic party in Pennsylvania and Massachusetts at the expense of the State of Virginia, which is accordingly penalized for being safely democratic." Resolutions were adopted at a mass meeting of citizens, held at the academy of music last night, calling upon congress to cause an investigation into the circumstances under which and why secretary of the Navy Josephus Daniels awarded the contracts for building the supply ships and transport to the Boston navy yard, respectively. Further these resolutions request that congress refuse to vote the appropriation of \$400,000 asked by Secretary Daniels for putting the yards in shape in order that they might be able to build the vessels.

## Shake-Up in Japanese Navy.

Tokio, March 25.—An extensive shakeup occurred among the officials of the Japanese navy today in connection with the recent naval scandals. Among the principle changes gazetted was that of Vice-Admiral Masumoto, who was relieved of the command of the Kure naval station. His successor there is Vice-Admiral Shigafuro Yoshimatsu.

## Resign from Directorate.

New York, March 25.—Henry Phlips who has been identified with the United States steel corporation since its organization, announced today his resignation from the directorate and the finance committee of the corporation. James A. Farrell, president, succeeds him on the finance committee, it was said.

## CONVICT-MADE GOODS OUTLAWED

### Any Shipped Interstate Could Be Confiscated by Treasury Department

(By Associated Press.)

Washington, March 25.—After a vigorous partisan contest, the house today passed a bill to bar foreign convict-made or pauper-made goods from competition with the products of American free labor. The measure, which now goes to the senate, follows a bill recently passed by the house forbidding the shipment of convict-made goods in interstate commerce into states which prohibit the sale of such products in the open market.

Under the measure passed today all shipments of goods proven to be convict or pauper made, could be confiscated by the treasury department through court proceedings, similar to libel prosecutions under the admiralty laws. In addition the bill provides that any consignor, seller, owner, shipper, importer, consignee, agent or other person who knowingly and fraudulently introduces or seeks to introduce the prohibited articles into the commerce of the United States, upon conviction shall be fined for each offense a sum not exceeding \$5,000 or be imprisoned for not exceeding two years.

## Veteran Who Sent Last War Signal Dead

(By Associated Press.)  
Atlanta, Ga., March 25.—Pierre Proal Huriburt, a union veteran of the war between the states, said to have sent the "last" signal message of the war, died today at the home of his son, Harry D. Huriburt, here. He was a member of the fourteenth Connecticut regiment, and served in the signal corps of the army of the Potomac.

## POLITICS AND POLITICIANS.

The senate has voted \$300,000 for the erection of a hospital in Washington to be known as the Gallinger Hospital, in honor of Senator Gallinger of New Hampshire, who was one of the most successful practicing physicians in New England before he went to the senate.

The government at Washington and London are unceremoniously ignoring the demands of Carranza to deal with him directly when they have grievances. While no direct statement has been forthcoming from other nations, it is believed that they will follow the example of England and the United States.

Cleveland is going to try a scheme which most other communities have been too much tied down to habit even to consider. That is to cheat the clock for the purpose of putting more daylight into the average person's day. By discarding Central time and adopting eastern time for local use, Cleveland will do business on a schedule considerably ahead of the sun's schedule instead of considerably behind it. Work will begin an hour earlier and end an hour earlier and in the spring and summer there will be plenty of time after working hours for outdoor daylight sports and recreations.

Yamacraw to Seabee's Aid.  
Washington, March 24.—An unusual steamer was reported against today south of Plover Rocks, near Miami Fla. The revenue cutter Yamacraw sailed from Savannah to her assistance.

## Mantels Tile Grates

We have a large assortment from which to choose. Let us show you and help you plan your fire-place for looks and comfort.

### Ulmer Mantel & Tile Co.

## Why we want Small Accounts

Do you realize that a hundred small accounts make a bank stronger than a dozen large ones even if they aggregate the same total of deposits?  
That's why we are constantly seeking new customers. We want as wide a circle of friends and customers as possible.  
Of course, large accounts are welcome, too, for it is our purpose to serve ALL people.  
But we want men and women of limited means to know that this bank is willing to accept their deposits and give them the advantage of our advice and every facility of the institution.  
If you are not a bank depositor at all come in and get acquainted with us. We will be glad to talk things over with you.
